Select a treatment area:

TOTAL (ALL AREAS)

Patients waiting to start treatment

At the end of May 2021...

What proportion of patients were waiting within 18 weeks?	68.1% (The NHS operational standard is 92%)
Half of patients were waiting less than	12 weeks
92 out of 100 patients were waiting less than	39 weeks
How many patients were waiting to start treatment?	54,400 patients

Patients who completed their pathway and started treatment

During May 2021...

For treatment that involved admission to hospital, e.g. inpatient appointments

How many patients started admitted treatment?	284 patients
Half of these patients started treatment within	11 weeks
19 out of 20 patients started treatment within	96 weeks

For treatment that did not involve admission to hospital, e.g. outpatient appointments

How many patients started non-admitted treatment?	7,542 patients
Half of these patients started treatment within	9 weeks
19 out of 20 patients started treatment within	59 weeks

Notes:

1. **N/A** = Data not available. Either this trust does not provide services under this treatment area or they have not submitted RTT data for this month.
2. "-" = Percentage figure not displayed for fewer than 20 patients. Measures in weeks (median and percentile waiting time) cannot be accurately estimated for fewer than 20 patients.
3. Performance against the 18 week standard is not calculated or published for providers and commissioners involved in field testing for the clinical review of standards.
