

Important information about COVID Vaccinations in Greenwich

Getting your first vaccine

If you are over 50, a carer or clinically vulnerable and have not yet had your vaccine, please book an appointment as soon as you can to protect you. As well as being able to book an appointment through the national booking system, (www.nhs.uk or **call 119**) there are appointments available at Greenwich GP vaccination sites. Please check which site covers your GP practice and contact the site to book. **Details are below.**

If you are due your second dose

The nationally agreed gap between the first and second dose of the vaccine for COVID-19 is between 11 to 12 weeks. Your second dose will be the same vaccine as your first one. Everyone who has had their first vaccine has a second vaccine reserved for them. Appointments for second dose vaccines are being offered to everyone who is due to have one. Please wait to be contacted with your appointment. If it is 11 weeks since your first dose but you have not yet been contacted to book your second appointment, please call the site where you had your first dose. **Details are below.**
